LOVE UNEXPRESSED.

The sweetest note among the human heartstrings Are dill with rust The sweetes chords admissed by the angels Are clogged with cust,
We pipe and pipe again our dreamy music.
Upon the self-same strains.
While sounds of rime and lear and desolution Lome rack in sad refrains

On through the v orld we go an army marching
With I stening cars
Each longing, signing for the heavenly music
I e never tears.
Each longing, signing for a word of comfort—
A word of love to chare the endless journey
Of each is hard, his v days Or earth's hare, busy days.

They lose his and we know it this suffices Why should they pause to give that love expression

Why should they pause to give that love expression

Why should they pause? But still our hearts are aching
With the gnawing pain

Of hungry over hat longs to hear the music,
And longs and longs in vain

We love their and they snow it, if we falter,
With lingers mind.
Among the unused strings of love's expression,
The netes are dumb.
We shrink within ourselves it socceless sorrow,
Leaving the words unstand
And size it is all with these win love the deserve And sice by a de with these we love the dearest, Thus on we treat and thus each heart in si ence Waiting and hop ng for the heavenly music
Beyond the distant hills
The only of Tererice of the love in heaven
From love on parth below

Is here we love not know not how to tell it,

And there we all shall know

Lafayette Hend, who has been nominated as

We are informcol that he has been a resident of Southern Colocado for over twenty years, and by an upright and only rous life has won the esteem and friendship of all who know aim. His infuence in Southern Colorado is very great, and las natue on the Repulbean ticket willacd greatly to its strength in that part of the State. We have received it too late for insertion this week,

Wr shou d be remiss in a public duty did we fai to give some expression of the general satisfaction that our county convention had the wiscom to pace in nomination our respected townsman, Judge E. S. Mr. Randa is one of the earliest setters of the Cerritory, who has witnessed and feit a. the vicissitudes of noncer life, and grown up with and contributed to the improvements of the country. Conversant with public affairs, fami iar with the pringiples of egislation, and the practica needs and encs, and machinery of government, and especially with the wants of the country, he is every way qualified for an accessiving of the honor the hoop e are about to confer upon bim.

It is essential to the prosperity of the nation here to such a course in full accordance with

Democratic eaders may to us what they choose about Tilden's honesty and his great abilities, but it is unnecessary for them to say a work a sout his war record. Any one who kent himself posted in the political history of the United States during the war knows very we the record of Tilden throughout that trying ordeal.

We all know that curing the war, when good, patriotic men left their homes and faid cown their lives by thousands in order that the republie mig it be preserved, which meant protection and counties and towns and firesides as wel, Samue 1.
